6 June 1983

MEMORANDUM FOR: Director, Intelligence Community Staff

SUBJECT: HPSCI Report on FY 1984 NFIP Budget

1. In subject report the statement is made: "To date the Committee finds no evidence that a conscientious effort has been made by the DCI and NFIB program managers to comply with the Committee's request." The request centers on the Committee urging to the Intelligence Community to scrutinize existing programs and all new initiatives to identify lower priority tasks which should be reduced or eliminated. The Committee also believes it is time to slow the manpower growth and reassert the need for comprehensive program evaluation.

2. The Director feels that the Community has taken appropriate measures to reduce or eliminate lower priority activities and that the manpower growth centers on expanding priorities which add to but do not replace existing essential efforts. It would be useful if you could prepare a response for the DCI noting what measures we have taken to comply with the Committee's urgings as well as explain and justify the increases we seek.
